

## Choice Hotels International, Inc. Selects LodgingControls , Inc. as a Qualified Vendor

**Austin, May 7, 2018 ([IssueWire.com](http://www.IssueWire.com))** - LodgingControls, Inc., maker of Mobile Operating Platform (MOP), has been selected by Choice Hotels International, Inc. (NYSE: CHH) to participate in its Qualified Vendor Program.

Choice Hotels International is one of the world's largest hotel companies, with more than 6,800 franchised hotels in over 40 countries and territories, and offers accommodations in the upscale, upper midscale, midscale, and economy segments. Through this new relationship, Choice's franchisees will be able to purchase software to streamline overall hotel operations.

Room attendants for Choice Hotels branded properties will clean over 73 million rooms this year alone. Twenty five (25) cents on every dollar hotels earn is lost on labor—which is why managing the “Heart of the House” is so critical.

“Our Mobile Operating Platform helps hoteliers improve the efficiency of daily operations by organizing the onsite schedules for hotel staff,” said Albert Sledge, Business Development, LCI. “It’s exciting to become a Qualified Vendor for Choice Hotels, a company that shares our commitment to franchisee success, and we look forward to helping their owners work smarter, faster, and better with our program.”
